PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, and relational database analysis for data extraction, transformation, and reporting. Proficient in complex query writing, including joins, CTEs, aggregations, and window functions, with experience in data cleaning, exploratory analysis, and SQL Server-based reporting workflows.

PROFESSIONAL EXPERIENCE

Data Analyst at Graspars E-Learning Solutions

July 2024 – October 2025

Data Analyst

Bhopal, Madhya Pradesh

- Analyzed 100K+ student engagement records to identify learning behavior trends and improve content performance insights.
- Processed and cleaned large-scale datasets using SQL and Python, improving reporting accuracy by 18%.
- Generated analytical reports that supported content optimization and contributed to a 15% increase in engagement metrics.

Data Science Intern at Gems of JCI Private Limited

July 2023 – August 2023

Python Developer

Laxmi Nagar, India

- Collected and organized 1K+ image samples from social media sources for experimentation with image filtering and computer vision concepts.
- Built Python scripts using OpenCV and NumPy to apply basic image processing filters such as grayscale conversion, edge detection, and blurring.
- Performed basic dataset preprocessing and testing to evaluate filter outputs and improve understanding of image processing workflows.

PROJECTS

Customer Shopping Behavior Analysis | SQL, Python, Power BI, Excel

May 2025

- Built an end-to-end retail analytics solution to analyze customer purchase behavior, sales performance, and buying patterns.
- Performed data extraction, transformation, and analysis using SQL (joins, CTEs, aggregations, filtering) to uncover actionable business insights.
- Developed interactive Power BI dashboards for KPI monitoring, sales trend analysis, and customer segmentation to support data-driven decision-making.

Gesture Based OpenCV Project | Python (OpenCV, NumPy), MediaPipe

February 2025

- Built a real-time gesture recognition system using **Python, OpenCV, and MediaPipe** for hand tracking and interactive input processing.
- Optimized the processing pipeline using **NumPy** for efficient real-time performance and accurate gesture-based interaction.

TECHNICAL SKILLS

Languages: SQL, Python, Java

Databases: SQL Server, MySQL, T-SQL, SSMS

Tools: Power BI, Tableau, Excel, Pandas, NumPy

Core Skills: Data Cleaning, EDA, ETL, Dashboarding, Data Visualization, Query Optimization

CERTIFICATIONS

- IBM Certified Data Analyst [Coursera](#)
- SQL Certification by HackerRank [HackerRank](#)
- Sentiment Analysis using Python [GreatLearning](#)
- OOPs in Java [GreatLearning](#)

EDUCATION

Maharaja Agrasen Institute of Technology, Rohini, Delhi

2021 – 2025

B.Tech. in Artificial Intelligence and Data Science

Rohini, Delhi

Guru Nanak Dev Institute of Technology (GNDIT), Rohini, Delhi

Jul 2018 – Apr 2021

Diploma in Computer Engineering

Rohini, Delhi
